

InSpire Group

Author: Administrator User<info@frifugl.no>

The core investment entity of the Group is InSpire AS which has in most cases controlling interests in the various entities of the Group. It also holds financial investments and direct private equity investments in among others medical technology and nanotechnology. InSpire Invest is seed and "angel" investor to new projects, and project initiator in developing countries.

The InSpire Group is controlled by Nordic Enterprise, the investment company of the Willums family, which also provides funding for the InSpire Foundation for Business and Society. Other investors are the employees of the InSpire Group. In individual companies of the group, the local employees have always a shareholding and incentive programs.
